

# PROJECT SHEET

## N-Sea is an integrated total subsea solutions provider in Survey, IRM & Construction, Subsea Cable Repair & Installation, and UXO ID & Disposal.

We deliver total solutions for subsea infrastructures and assets that meet the needs of our clients and the international oil & gas, and renewable industries, considering a safe environment.

We want to create a sustainable business and increase our profitability through solid project management and full client awareness.

To realise this ambition we develop our organisation to the level of best in class being fully synchronised with our ambition and strategy by contributing to the following key success factors constantly:

- Qualified and engaged people
- Long term client relationships
- Strategic partnerships
- Innovative solutions
- Safety and quality 100%
- Visible presence
- Full control over marine assets

### Environment, Health, Quality, Safety (EHQS)

Our EHQS policy aims to ensure alignment to the N-Sea mission, vision and strategy, where 'first time right' means ensuring that harm is not inflicted upon its employees, contractors, service providers, or the environment, N-Sea's assets, as well as members of the public affected by its operations, infrastructure and all operational activities within our scope of work.

N-Sea management and all employees are committed to create a physical, social and psychological safe working environment. We ensure the well-being and protection

of human life, environmental duty of care, protection of assets and customer satisfaction.

N-Sea has integrated safety, security, health, environment and quality requirements into all our activities so that decisions made ensure the consideration of economic development, environmental quality, and social equity to continually improve performance and achieve stakeholder requirements.

***“We genuinely care. We avoid harm to people and the environment while providing quality services to our customers.”***

To achieve our mission statement, we have established 4 core values that guides all employees in building their personal roles and developing our organisational culture.

We are driven to perform in accordance with the industry best practices and meet the requirements of ISO 9001 (Quality Management), ISO 14001 (Environmental Management) and ISO 45001 (Occupational Health & Safety Management) for which we are certified.

A safe working environment is vitally important to N-Sea. The safety awareness and actions of our employees play a crucial role in ensuring occupational, social and psychological safety within our organisational culture. This is reflected by our Level 3 Safety Culture Ladder certification.

## Environmental scope Braveheart Spirit

**Client** Ocean Ecology Limited

**Location** North Sea UK sector

**Period** 11-27 January 2024

**Assets** Braveheart Spirit

### Project description

N-Sea supplied the vessel Braveheart Spirit to Ocean Ecology to conduct Benthic Survey Works that exists of a full reef assessment of any areas of potential geogenic and biogenic reef habitats.

Identification and assessment of the status of protected features (such as Sabellaria spinulosa biogenic reef or stony reef) to confirm presence and estimate extent, reefness, and condition.

This was achieved using a drop-down camera and subsequent detailed analysis of seabed video and stills imagery collected.
